Deendayal Disabled Rehabilitation Scheme to promote Voluntary Action for Persons with Disabilities (Revised DDRS Scheme)

PREFACE

The umbrella Central Sector Scheme of this Ministry called the "Scheme to Promote Voluntary Action for Persons with Disabilities" was revised w.e.f. 01.04.2003 and was renamed as the "Deendayal Disabled Rehabilitation Scheme (DDRS)". However, while revision of the scheme took place in 2003, the cost norms of 1999 had remained unchanged. The revision of the cost norms has become imperative to compensate for the price rise. The Consumer Price Index (CPI) for Industrial workers has risen by 38% from 1999 to 2007. It has been decided to revise the cost norms for honoraria, recurring items and nonrecurring items of expenditure. The scheme has also been revised to the extent that there has been widening of the scope of the model projects.

The revised Scheme now has two parts viz. Part-A consisting of the Scheme and the Documents (prescribed proforma) required for consideration of a proposal of Grant-in-aid under the Scheme and Part-B (Model Project Profiles) which elaborates the various model projects and cost norms for honoraria, recurring and non-recurring items of expenditure thereunder .

The revised Scheme shall be effective from 01.04.2009.

New Delhi

Dated: 9.12.2009

Deendayal Disabled Rehabilitation Scheme to promote Voluntary Action for Persons with Disabilities (Revised DDRS Scheme)

DEENDAYAL DISABLED REHABILITATION SCHEME

1. INTRODUCTION

1.1 According to Census 2001, there were about 2.2 crore persons with disabilities in India, constituting 2.1% of the total population. The estimated population of persons with disabilities in 2008 is 2.44 crore.

1.2 The mandate of the Constitution of India is to ensure equality, freedom, justice and dignity of all individuals, which implies an inclusive society for all, especially the disadvantaged. Article 41 of Part IV ["Directive Principles of State Policy"] which is particularly relevant with regard to persons with disabilities, reads as follows:

"41. Right to work, to education and to public assistance in certain cases -

The State shall, within the limits of its economic capacity and development, make effective provision for securing the right to work, to education and to public assistance in cases of unemployment, old age, sickness and **disablement**, and in other cases of undeserved want."

1.3 In pursuance of the above provision of the Constitution, the following initiatives have been taken by the Government for the welfare and empowerment of persons with disabilities:

- i. Enactment of the "**Persons with Disabilities (Equal Opportunities, Protection of Rights and Full Participation) Act, 1995**" (hereinafter, the PwD Act), which provides for education, employment, non-discrimination and social security for persons with disabilities.
- ii. Adoption of the **National Policy for Persons with Disabilities**, in February, 2006, to address various concerns regarding physical, educational and economic rehabilitation of persons with disabilities.
- iii. Ratification of the UN Convention on the Rights of Persons with Disabilities (UNCRPD), which has come into force on 3rd May, 2008.

1.4 Section 2(w) of the PwD Act, 1995, defines "rehabilitation" as "a process aimed at enabling persons with disabilities to reach and maintain their optimal, physical, sensory, intellectual, psychiatric or social functional levels". Some of the main components of rehabilitation are:

- i. provision of assistive aids and appliances
- ii. education
- iii. vocational training
- iv. assistance for employment
- v. training in or assistance for independent living

1.5 Rehabilitation is a specialized profession. The Rehabilitation Council of India, set up under a 1992 Act of Parliament, regulates and monitors the training of rehabilitation professionals and personnel, and promotes research in rehabilitation and special education.

1.6 Section 66 of the PwD Act, which deals with rehabilitation, reads as below:

"66. Appropriate Governments and local authorities to undertake rehabilitation

1. The appropriate Governments and the local authorities shall within the limits of their economic capacity and development undertake or cause to be undertaken rehabilitation of all persons with disabilities.
2. For purposes of sub-section (1), the appropriate Government and local authorities shall grant financial assistance to non-governmental organizations.
3. The appropriate Governments and local authorities while formulating rehabilitation policies shall consult the non-governmental organizations working for the cause of persons with disabilities."

1.7 The Central Government has been providing grant-in-aid to non-governmental organizations over successive Five Year Plans through various schemes for projects relating to rehabilitation of persons with disabilities.

1.8 In 1999, to enable more effective implementation of Section 66, PwD Act, the four schemes then existing for rehabilitation of persons with disabilities were amalgamated into a single scheme called the "Scheme To Promote Voluntary Action for Persons with Disabilities" as an umbrella Central Sector Scheme. The amalgamated scheme was revised with effect from 1.04.2003 with the approval of the then Minister-in-charge, and renamed as the "Deendayal Disabled Rehabilitation Scheme (DDRS)". However, cost norms were not revised in 2003.

1.9 NGOs are being given assistance under DDRS for providing a wide range of services to children/persons with disability, e.g.,

- i. programmes for pre-school and early intervention
- ii. special education,
- iii. vocational training and placement
- iv. community based rehabilitation
- v. manpower development
- vi. psycho-social rehabilitation of persons with mental illness
- vii. rehabilitation of leprosy-cured persons, etc.

1.10 Assistive aids and appliances to PwDs are provided under another Central Sector Scheme of the Ministry called "Scheme of Assistance to Disabled Persons for Purchase/Fitting of Aids/Appliances (ADIP)".

1.11 The DDRS guidelines include model projects covering various services provided by voluntary agencies which can be supported through grant-in-aid. Model projects give the following details:

- i. objective, needs to be addressed, target group in terms of type of disability and age and minimum permissible number of beneficiaries
- ii. teacher-beneficiary ratio (for pre-schools and special schools)
- iii. number of trades and an illustrative list of trades (for vocational training)
- iv. maximum amount of recurring and non-recurring assistance admissible for a specified number of beneficiaries in the form of cost norms

1.12 Grant-in-aid upto 90% of the project cost, found admissible on the basis of the prescribed cost norms in the relevant model project, can be provided to support a project under the Scheme. Tapering of grant every alternate year by 5% of the total admissible project cost has been introduced w.e.f. 2007-08 in the case of urban projects already funded for 7 years, to encourage gradual self-reliance of NGOs. The tapering is to continue till support comes down to 75% of the project cost admissible.

1.13 If grant is provided for all admissible non-recurring items in a model project in a year, on an average, about 80% of grant would be for recurring and 20% for non-recurring proposals.

However, as per norms, grant for non-recurring items can be provided only once in 2-3 years and most organizations do not seek grant for non-recurring items. Hence, in practice, the non-recurring component usually accounts for only upto 5 % of the total grant in a year.

1.14 The Ministry has been widening the scope of model projects under the Scheme as per need. Revision is done on the advice of disability-wise Expert Technical Committees (ETCs) constituted for the purpose.

2. NEED FOR REVISION

2.1 Revision of DDRS has become necessary for the following reasons:

- i. In 2003, when the scheme was last revised, cost norms of 1999 had remained unchanged. Hence, revision of cost norms is necessary to compensate for price rise since 1999.
- ii. It is necessary to periodically revise existing model projects and add new ones.

2.2 The Consumer Price Index (General) for Industrial Workers (CPI) rose by 38% from 1999 to 2007. Cost norms for honoraria, other recurring items, and non-recurring items of expenditure are being revised as shown in the table below:

S. No.	Item of Expenditure	Change Proposed
1.	Recurring	
(i)	Honoraria for technical staff	Increase - 33% to 38%
(ii)	Honoraria for non-technical staff	Increase - upto 25%
(iii)	Other recurring items	Increase - 33% to 43%
2.	Non-recurring	Most items-increase- 28% to 50% 2 items- decrease-50% and 75% respectively

2.3 Rationalization and merger of manpower categories in various model projects has been carried out. As against 80 categories in the original scheme, the revised list (at Part A, Annexure XIV), contains 66 manpower categories comprising 48 technical, 4 technical (part-time), and 14 non-technical categories.

2.4 Some model projects have been revised, as indicated below:

- i. Model Project for Vocational Training Centres (Model Project IV in Part B)

(a) Updating of illustrative list of trades

The illustrative list of trades being offered in Vocational Training Centres comprised 152 trades. Considering the demand for new skills like computer applications and programming, web designing and internet management, mobile repairing, etc., 14 new trades have been added (revised list given in Annexure to Model Project IV in Part B). Further new trades will continue to be added as and when required, since the list is only illustrative.

2.5 The Ministry will continue to widen the scope of model projects, based on recommendations of Expert Technical Committees (ETCs), within the revised cost norms (given in Part A, Annexure XIV to XVI)

3. THE REVISED SCHEME

Pursuant to the above the Central Government has approved the revised scheme, the main elements of which are as follows:

3.1 OBJECTIVES

The objectives of the scheme are:

- 3.1.1 To create an enabling environment to ensure equal opportunities, equity, social justice and empowerment of persons with disabilities.
- 3.1.2 To encourage voluntary action for ensuring effective implementation of the People with Disabilities (Equal Opportunities and Protection of Rights) Act of 1995.

3.2 APPROACH AND STRATEGY

The approach of this Scheme is to provide financial assistance to voluntary organizations to make available the whole range of services necessary for rehabilitation of persons with disabilities including early intervention, development of daily living skills, education, skill-development oriented towards employability, training and awareness generation. With a view to inclusion of persons with disabilities in the mainstream of society and actualizing their potential, the thrust would be on education and training programmes. In order to achieve the objectives of the scheme the key strategies will be as follows:

- i. To enhance educational opportunities at all levels and in all forms and enlarge the scope of vocational and professional opportunities, income generation and gainful occupations.
- ii. To support all such measures as may be necessary for promoting formal as well as nonformal employment and placement opportunities.
- iii. To implement outreach and comprehensive Community Based Rehabilitation programmes in urban and rural environments.
- iv. To support manpower development activities to train required personnel at different levels for all programmes/ projects/activities for persons with disabilities.

- v. To support the development, publication and dissemination of information, documentation and training materials.
- vi. To set up well equipped resource centres at different levels. To promote and support the development of self-help groups, parent organizations and independent living.
- vii. To encourage coordination, cooperation and networking and multi-sectoral linkages.
- viii. To support people with disabilities in projects which are environment friendly and ecopromotive.
- ix. To support construction and maintenance of buildings, provision of furniture and fixtures and installation and maintenance of machinery and equipment.
- x. To establish and support facilities for sport, recreation, leisure-time activities, excursions, creative and performing arts, cultural and socially inclusive activities.
- xi. To support and facilitate the availability of appropriate housing, homes and hostel facilities.
- xii. To support the conduct of surveys and other forms of epidemiological studies.
- xiii. To promote research in various development areas, innovative strategies, assistive devices and enabling technologies and support production of such devices ensuring quality control.
- xiv. To support effort to ensure protection of human, civil and consumer rights of persons with disabilities.
- xv. To support legal literacy, including legal counseling, legal aid and analysis and evaluation of existing laws.
- xvi. To support such other measures, which may meet the needs of the persons with disability and fulfill the obligations as prescribed in the People with Disabilities (Equal Opportunities and Protection of Rights) Act of 1995.

3.3 COMPONENTS ADMISSIBLE FOR ASSISTANCE UNDER THE SCHEMES

3.3.1 Broad Details of Norms

3.3.1.1 Project profiles, norms of honorarium, types of equipment/teaching material and trades, duration of programme, parameters for funding etc. are listed in Part A and Part B of these guidelines. These are illustrative and not exhaustive in nature. However, the Ministry, reserves the right to adopt parameters below the ceiling norms where there is justification to do so. These parameters can also be considered for relaxation with the approval of Secretary (Social Justice and Empowerment) in exceptional and deserving cases in general and particularly in the case of project proposals from North East Region or regions affected by natural calamities, provided the Ministry is satisfied that there are reasonable and valid grounds for doing so. The decision of the Ministry in this regard shall be final.

3.3.1.2 The assistance for the project as a whole will be determined with reference to the model project profiles and the total annual cost worked out and illustrated in Part B. New model projects and amendments to existing model projects would be made by the Ministry from time to time as per the cost norms indicated in Part B and summarized in Part A (Annexure XIV to XVI), based on need and experience of implementation.

3.3.1.3 There could be situations where projects of an already funded organization could comprise a variety of activities - for instance a project which has one or more of the components of assessment, creation of awareness, early intervention, special school cum VTC - falling under more than one illustrated project profiles. The cost norms would be extended to such existing hybrid projects also and the organization would be expected to identify the beneficiaries, staff and cost items for each such activity separately. In order to

facilitate the organizations, in such situations, which may require a time frame to fall in line with the current requirements, a time frame could be considered for compliance but this would not extend to the application of financial norms. Assistance to projects will be considered for recurring and non-recurring cost items. The cost norms, which would be one of the guiding factors for determining assistance, are given Part A (Annexure XIV to XVI).

3.3.1.4 Though attempts to standardize the cost norms have been made, there could be instances where there would be variation in the cost of items. Some common examples where there is likelihood of variation are rent & transport costs. The rent for running a Vocational Training Center may not be the same as for Special Schools. Also the rent rates may vary from one project location to the other. The ceilings for rent admissible have therefore been fixed in accordance with the type of project and project location.

3.3.1.5 The voluntary organizations are at liberty to provide for any additional services for the welfare of the disabled, for which user charges may be collected as a supplement to the assistance meted out by this Ministry. However, user charges should not be recovered from beneficiaries of BPL families. The basis of user charge in the case of non-BPL beneficiaries should be the capacity to pay.

The user charges so collected should be accounted for and reflected in the audited statements so as to facilitate understanding of the criterion and extent of such charges collected as well as their usage thereof. The organization would be required to give a certificate duly signed by an authorized signatory to the effect that stipend/hostel maintenance claimed is in respect of dependent beneficiaries whose annual family income does not exceed Rs. 1 lakh and user charges are being recovered in respect of only those who are from families that are not below the poverty line.

3.3.1.6. The Human Resource Personnel assisting the non-governmental organizations are not the employees of Govt. of India or the Ministry. References in this Annexure to enlisting of the services of Human Resource personnel with prescribed qualifications of RCI should not be construed as giving rise to claims of honorarium at par with personnel of other institutions/bodies in the Governmental sector.

3.3.1.7 Funds may be earmarked by the Ministry as required for meeting the expenditure on monitoring, inspection of projects of the voluntary organization by designated agencies, exemptions required if any in the case of directions of High Court/Supreme Court etc.

3.3.2 The following model projects are supported under the scheme:-

I. Project for Pre-School and Early Intervention and Training

The primary objective is to prepare infants and children upto 6 years of age for schooling in special schools and/or integration at the appropriate stage in regular schools. The project also provides for therapeutic services, day care and counseling of parents.

II. Special Schools

Special school projects for the mentally challenged, the hearing and speech impaired and the visually challenged are supported. The main thrust of special education is to develop communication skills and other sensory abilities, with the end objective varying from acquiring daily living skills to integration in regular institutions of learning and society in general. Residential facilities can also be covered under the grant. Continuing projects for special schools for Orthopaedically Handicapped children are being funded, but there is no model project.

- III. **Project for Cerebral Palsied Children**
The objective is similar to projects for special schools, with more emphasis on catering to the therapy needs of the individual.
- IV. **Vocational Training Centres**
These projects are meant for persons with disabilities in the age group of 15-35 years and are expected to provide skills to enable such persons to move towards economic independence. An illustrative list of trades and the maximum period of training has been specified in the scheme.
- V. **Sheltered Workshops**
The objective is similar to vocational training centres and the projects are meant for creating income generation opportunities.
- VI. **Project for Rehabilitation of Leprosy Cured Persons**
The basic aim of this project is to empower leprosy cured persons with skills to enable them to improve their socio-economic condition. The projects can include vocational training units and homes (only for severely disabled).
- VII. **Half Way Home for Psycho-Social Rehabilitation of Treated and Controlled Mentally Ill Persons**
The objective of this project is to provide a facilitating mechanism for rehabilitation of persons whose mental illness is treated and controlled, after their discharge from mental hospitals/asylums. The project provides vocational training for such persons and counseling for them and their families to facilitate reintegration with the family/society. Medical advice/treatment relating to their illness is also provided so that periodic psychiatric disturbances can be managed.
- VIII. **Project relating to Survey, Identification, Awareness and Sensitization**
The objectives include identification of disability to facilitate early intervention through awareness creation, sensitization of parents/guardians on management needs of persons with disabilities, suggesting appropriate rehabilitation programmes and facilitation of research on trends relating to various disabilities.
- IX. **Home Based Rehabilitation Programme/Home Management Programme**
The objectives of this project include guidance and provision for mobility skills, development of basic communication skills and daily living skills, training and sensitization of families of children with disabilities, in the context of the home environment.
- X. **Project for Community Based Rehabilitation**
The objective of this project is to rehabilitate and train disabled individuals and integrate them into their communities. The focus is on partnership between the disabled persons, families, community and health professionals to provide needed services in a non-institutional setting, in an environment where services for disabled persons are seriously limited or absent. These projects are particularly relevant in rural areas
- XI. **Project for Low Vision Centres**
These projects provide facilities for medico-rehabilitation of persons with low vision. The centres provide identification, assessment, rehabilitation and counseling services and assist individuals with low vision to reach their maximum potential through guidance and improvement of visual efficiency.
- XII. **Projects for Human Resource Development**
These projects provide training for trainers in special education, develop resource centres and networking of resources in the field of rehabilitation of the disabled.

- XIII. **Seminars/Workshops/Rural Camps**
Lump-sum grant is provided under this project to support seminars/ workshops/ rural camps with specified objectives, outcomes and tangible outputs.
- XIV. **Environment Friendly and Eco-Promotive Projects for the Handicapped**
Environment friendly and eco-promotive projects by the disabled like gardening, horticulture, raising of nurseries and planting of trees are supported.
- XV. **Grant for Computer**
Computers of appropriate configuration as per requirement can be provided under this project. Grant for computers is also an admissible component under various other projects under this scheme.
- XVI. **Construction of Building**
Support for construction of class rooms, vocational training or employment centres and hostel buildings is provided under this project.
- XVII. **Project for Legal Literacy, including Legal Counseling, Legal aid and Analysis and Evaluation of Existing Laws.**
Support for such projects is provided in the form of honoraria for para-legal trainers and other staff, contingencies and court expenses.
- XVIII. **District Disability Rehabilitation Centres**
The objective is to support the functioning of District Disability Rehabilitation Centres set up by the Government, after these are handed over to voluntary agencies. These Centres are involved in awareness generation, rehabilitation and training at the grassroot level.

3.3.3 The following components are admissible for assistance under the Scheme under various model projects:

I. Recurring expenditure

- i. Honorarium against staff deployed for the project by the voluntary organisation
- ii. Transportation for beneficiaries
- iii. Stipend for beneficiaries/hostel maintenance
- iv. Cost of Raw Materials
- v. Contingencies to meet office expenses, electricity and water charges, etc.
- vi. Rent

II. Non-recurring expenditure

- i. furniture
- ii. equipment
- iii. building construction
- iv. books

Cost norms for expenditure are indicated in the scheme as cost ceilings for all recurring and nonrecurring items of expenditure.

3.4 ELIGIBLE ORGANISATIONS

3.4.1 The following organizations/institutions shall be eligible for assistance under this scheme:

- i. Organisations registered under the Societies Registration Act, 1860 (XXI of 1860), or any relevant Act of the State/Union Territory; or,
- ii. A public trust registered under the law for the time being in force; or,
- iii. A charitable company licensed under section 25 of the Companies Act, 1958,

Further, the registration should have been in force for at least 2 years at the time of applying for grant under this scheme.

Note: In exceptional cases, Secretary, Ministry of Social Justice & Empowerment is empowered to waive the condition of minimum time period, for reasons to be recorded in writing, based on detailed justification.

3.4.2 An organization/institution specified in Para 3.4.1(i) to (iii) should have the following characteristics:

- i. It should have a properly constituted managing body with its powers, duties and responsibilities clearly defined and laid down in writing.
- ii. It should have resources, facilities and experience for undertaking the programme.
- iii. It should not be run for profit to any individual or a body of individuals.
- iv. It should not discriminate against any person or group of persons on the grounds of sex, religion, caste or creed.
- v. It should ordinarily have existed for a period of two years.
- vi. Its financial position should be sound.

Note: The conditions related to experience, period of existence and financial soundness may be relaxed by the Secretary in consultation with Financial Advisor, in rare and exceptional cases, for reasons to be recorded in writing.

3.5 NORMS OF FINANCIAL ASSISTANCE

3.5.1 The quantum of support/ grant-in-aid, determined on the basis of the scope and merits of the project proposal, could be upto 90% of the budgeted amount for a project, based on prescribed cost norms. To encourage gradual self-reliance of NGOs, tapering of grant is applied in projects already funded for 7 years in urban areas by 5% every alternate year, so as to reduce the level of funding to 75%.

3.5.2 The details of norms for grant-in-aid are indicated in **Annexure XIV to XVI in Part A** 3.5.3 If an organisation has already received or is expecting to receive a grant from some other official source for a project for which application is being made under this scheme, the grant under this scheme will be sanctioned after taking that into account. The application will have to give information/ declaration to that effect.

3.6 APPLICATION AND SANCTION

3.6.1 For new projects

Grants-in-aid for new projects will be sanctioned keeping in view the recommendations of the State Government/State Commissioners /National Institutions/Organisations/any other system designated by the Ministry of Social Justice & Empowerment for this purpose on the form prescribed (**PART-A, ANNEXURE-II**). However, for new projects dealing with training of professionals, applications should be submitted to the Rehabilitation Council of India (RCI) for approval and support.

3.6.2 For continuing projects

I. Application is to be submitted on prescribed form for release of grant-in-aid (as per **PART A, ANNEXURE-II**). The required documents to secure release of grant-in-aid are:

- i. Budget Estimates for the financial year for which grant-in-aid is required (show recurring and non-recurring items separately).
- ii. Audited/unaudited accounts for the previous year indicating the expenditure incurred on each sanctioned item vis-à-vis the grant sanctioned.
- iii. Receipt and Payments statement, Income & Expenditure Statement and Balance Sheet.
- iv. Annual Report of the previous year.
- v. Audited utilisation certificate with itemwise expenditure as per the sanctioned items of grant (as per **PART A, ANNEXURE-III**).
- vi. Details of staff employed (as per **PART A, ANNEXURE-IV**)
- vii. Details of beneficiaries (as per **PART A, ANNEXURE-V**)
- viii. Details of office bearers and members of managing committee(as per **PART A, ANNEXURE-VI**)
- ix. Any other information considered necessary by the organisation or as asked.

II. Additional documents required in the case of projects for DDRCs

- i. Summary of physical and financial progress as per quarterly progress report prescribed in DDRC manual (**Table I & II at Annex-III of DDRC manual.**)
- ii. Certificate to the effect that the grants towards contingencies are not being utilized for payment of rent / maintenance / repair of the building or installation of electrical or water connection or towards purchase of furniture.
- iii. Applications for the continuing projects will be sanctioned on the recommendation of the State Government/ State Commissioners/ National Institutions/ Organisations/any other system designated by the Ministry of Social Justice & Empowerment for this purpose. The NGO will maintain separate account for each Scheme/Project. The organisation will also be open to inspection by Govt. authorities etc. and for internal audit/concurrent audit and audit by the CAG, whenever required.

NGOs will submit their applications after calculating the amount required to be released under grant-in-aid in a standardized calculation sheet (as per PART-A, ANNEXURE-VII) as per the norms prescribed.

3.7 PROGRAMME MANAGEMENT

3.7.1 Nodal Department in the State Government/UT Administration

Every State Government/UT Administration will designate one of its Departments as the Nodal Department for the programme. The Nodal Department should be so chosen that it can most efficiently carry out nodal responsibility for effective implementation of the programme all over the State/UT.

3.7.2 Nodal Responsibility at the District Level

Every State Government/UT Administration will also be expected to designate one nodal officer or agency at the district level which will be assigned overall responsibility of effective implementation of the programme at the district level.

3.7.3 Management at the Local Level

At the local level, the state Governments will be expected to assign responsibility for effective implementation and supervision of the programme to an appropriate body e.g. Gram Panchayat, Municipality/ Corporations as the case may be.

3.8 CONDITIONS FOR ASSISTANCE

3.8.1 An aided organization/institution/establishment shall be open to inspection by an officer of the Central Government and the State Government or a nominee of their authorities or any other agency so designated by the Ministry.

3.8.2 An aided organization organizing a seminar, conference, refresher course or a workshop at Government's expense could invite foreign delegates only with the prior approval of the Govt. of India.

3.8.3 If an organization has already received or is expected to receive a grant from some other official sources for the purpose for which the application is being made under this Scheme, assessment for central grant will normally be made after taking into account grant from such other official sources.

3.8.4 An aided organization shall maintain separate accounts of the Grants received under this Scheme. They shall always be open to check by an officer deputed by the Government of India. This shall be open to a system of internal audit or concurrent audit. They shall also be open to test check by the Comptroller and Auditor General of India.

3.8.5 An aided organization shall maintain a record of all assets acquired wholly or substantially out of Government grant in the Stock Register and present these to the Auditor when required to do so. In this regard the provisions of the General Financial Rules, 2005 (Govt. of India) would be applicable.

3.9 INSPECTION AND MONITORING

3.9.1 The organizations/institutions receiving grants under this Scheme shall submit periodic reports to the Ministry in prescribed proforma for regular feedback and monitoring. The State Governments/UT

Administration or any other agency prescribed by the Ministry would conduct regular inspections of the agencies and send their reports to the Ministry of Social Justice and Empowerment. In addition, there shall be independent evaluation by designated monitoring and inspecting agencies.

3.9.2 The Ministry may outsource preliminary examination of proposals received under the scheme and database development so as to enhance the operational capability within the Ministry.

3.9.3 It is important that the funded NGOs also establish and maintain a computerized database. This would enhance effective communication along with timely submission of prescribed reports for evaluation purposes.

3.9.4 The remuneration and overhead expenses on independent evaluation and outsourcing by the Ministry for preliminary examination of proposals and database development shall not exceed 2% of the total allocation of the Scheme.

NOTES

- a. The qualifications prescribed above are the desirable minimum and should be read and interpreted with reference to qualifications recognised by RCI.
- b. The Human Resource Personnel are the employees of Non Governmental Organisations and not of Govt. of India. The organisations are free to offer higher honorarium from their own resources and the Ministry's funding under the scheme will not exceed the above ceilings. This should be made clear at the time of engaging the resource personnel.
- c. The basic tenet of the Scheme is voluntary action and reference to or requirement of adherence to qualifications in this scheme is not to be construed in any way as the basis to claim equivalent remuneration paid elsewhere. This should be made clear at the time of engagement of Human Resource Personnel.
- d. A mere listing of the post in this part of the annexure does not automatically entitle to funding of the post under any of the project profiles for major activities given in part B of this annexure, for a set of defined parameters and the extent of assistance will be regulated keeping in view these project profiles. The funding of each post will be considered on merits and keeping in view the ideal cost per beneficiary of a particular project profile.
- e. A number of posts pertaining to rehabilitation services such as Physiotherapist, Speech Therapist etc. have been given but these services should preferably be hired on part time basis.

PART-B: MODEL PROJECT PROFILES

I. PROJECT FOR PRE-SCHOOL AND EARLY INTERVENTION AND TRAINING

The Projects for pre-school intervention are primarily to prepare the disabled for their schooling in special schools and/or integration at the appropriate stage in regular schools. These projects will serve infants and children upto 6 years of age.

IA. Hearing Handicapped Segment

1. Objectives:

- i. To strive towards development of speech to facilitate integration in regular schools and the extent of effort in this respect would be the index for performance of the project. The transfer from this stage to special schools should be limited to the extent possible.
- ii. To identify the need for and to provide for appropriate therapeutic services in the area of speech and hearing.
- iii. To provide for day care management of the child.
- iv. To involve parents through counselling as an integral part of the preparatory intervention and ensure their participation in the programmes to be developed for early intervention.

2. Project size:

The strength of beneficiaries for the pre-school intervention units should be from 15 to 50 disabled children of a particular category. The project can cover more beneficiaries if more than one disability is covered.

3. Infrastructure:

If this project is part of a special school and rent is claimed for that project no additional assistance for rent would be considered.
2. Under the head of contingency expenses such as postage, transport, telephone, stationary, medicines, office expenses, electricity, water charges, routine repairs to building, equipments and their maintenance etc. would be covered.
3. The beneficiaries in such type of projects require attention only for a few hours in a day/week and efforts should be made to use the services of teachers, attendants and ayahs optimally. The actual number of posts would be regulated keeping this factor in view.

II. SPECIAL SCHOOLS FOR PERSONS WITH DISABILITIES

Special schools are meant to provide for residential as well as non-residential care with the end objective of bringing about feasible improvement in the lives of the persons with disability through acquiring skills as basic as activities of daily living to their integration into regular institutions of learning and society in general. Prescribed inputs based on the needs of each of the sub categories of the disabled that are expected to bring about behavioral changes and enhancement of their cognitive abilities (specially with reference to the mentally challenged), and specialized skills that facilitate the process of rehabilitation should, in brief, constitute the curriculum of these institutions. Physical activities that bring about improvements in relation to the outside world such as dancing, play-acting, yoga, martial arts and activities that provide for aesthetic stimulus like music, painting and other creative vocational inputs are some of the expected inputs from these institutions.

It is desirable that voluntary organizations concentrate on one type of disability and/ or beneficiaries with multiple disabilities rather than spreading out their activities in assorted categories of disability. NGOs are encouraged to make optimal use of the related services provided by other existing institutions in the vicinity with a view to achieve synergy in services rendered to the disabled in their operational locations. The ultimate objective of the special schools, ideally, should be to move towards inclusion of differently-abled students in regular schools/institutions thereby facilitating their integration with the mainstream. In this scenario the role of these institutions should be that of resource providers and facilitators.

While assistance for the Special schools is released by the Ministry for the main subcategory of the disabled, for the orthopedically handicapped the Ministry subscribes to the approach of integrating persons in this category in the regular schools, rather than encouraging exclusive schools for the OH, the principle behind

this being- that there is no requirement for special education for this category. The institutions presently being supported by the Ministry will however continue to be supported subject to performance being satisfactory.

The Special Schools that are encouraged for imparting Special Education to the disabled are:

1. Special School for the Mentally Challenged
2. School for special education of the Hearing and Speech Impaired
3. Special School for the Visually Challenged

II (A). SPECIAL SCHOOL FOR THE MENTALLY CHALLENGED

The Special Schools are meant to provide for residential as well as non-residential care with the end objective of bringing about varying degrees of improvement in the lives of the persons with disability. These may range from acquiring skills as basic as activities of daily living to their integration into regular institutions of learning and society in general. With reference to the mentally challenged category, the main objectives are:

1. Objectives:

- i. To undertake a proper assessment and diagnosis of each child.
- ii. To identify the psychological and therapy needs of the child.
- iii. To assess the capacity of each child and thereafter place them in groupings and grades. (The prescribed standards and instructions of NIMH regarding development of Special Schools should be kept in view).
- iv. To manage behavioral problems and to impart special skills, self-help skills, and cater to the therapy needs of mentally challenged children.
- v. To manage the educational and vocational needs.
- vi. To give special inputs for the improvement of the communication skills of the MR child.
- vii. Trained Teachers - with desirable minimum qualifications prescribed and recognized by RCI who are well attuned to the specific needs of mentally challenged children.
- viii. To apply the single window concept of providing for the plurality of therapy needs of the beneficiaries. RCI recognized BRS graduates who can provide for the above viz, speech therapy, physiotherapy, occupational therapy as well as psycho-therapy and parental counseling are encouraged to be recruited. Efforts should be made to use their services and dispense with the practice of hiring persons separately for each of the therapeutic services.

2. Size of Project:

- i. The chronological age of the beneficiaries of the Special School should be from 5-18 years of age. The upper age limit can be considered for relaxation. Children below the age of 5 years are expected to be covered under the project profile of Pre-School and Early Intervention and Home Management Projects.
- ii. The size of the Schools should be such that there are necessary levels of gradation prescribed by the National Institutes, with a total strength of 25 to 50 (or more) for each School, assuming that the teacher: beneficiary ratio range preferably from 1: 8 to 1 : 2 for the severely multiple disabled children. It must be appreciated, however, that children with multiple disability can be given a maximum of 1-2 hours of specialized attention in a day

and so a teacher can handle 4-6 such children in a day and the ratio of 1: 4 to 1 : 6 is quite acceptable for institutions having children with multiple disability.

3. **Infrastructure:** The infrastructure arrangement of the school should also be suitable for the MR children and should be barrier and hazard free as far as possible.

4. **Assistance Admissible:**

NOTES

1. The building owned or hired should be clean spacious, well lighted and ventilated to facilitate comfortable stay and learning by the trainees/beneficiaries. The building and classrooms should provide barrier free access as required.
2. The amount of assistance on account of rent will be regulated within the above ceilings keeping in view the parameters associated with it, the area occupied and used for the project, the number of beneficiaries and the prevailing PWD assessment rates in that area and the rent agreement.
3. The existing norms for the teacher - pupil ratio is kept at 1: 8 for the mentally challenged and 1:2 for the multiple disabled. The extent of funding will however be contingent on various factors like availability of resources with the government, the financial capacity of the NGO, delivery of services and activity level of the NGO, the need and justification put forth by the organization, etc.
4. Considering that the distance from home to school would vary in each case, the school authorities are at liberty to decide on adjusting the release of transport allowance with reference to the difference in distance and expenses covered by their students/beneficiaries.
5. Transport allowance will be retained by the NGO if it is providing the transport facility.
6. One Post of Attendant/ayah for every 15 beneficiaries (Ratio is the ceiling and the number would depend upon the severity of disability and age group of beneficiaries).
7. Efforts should preferably be made to use the services of multidisciplinary BRS graduates rather than availing services of different therapists on part time basis.
8. The posts of yoga teacher/music teacher and such other special subjects would be considered only after it is ensured that such beneficiaries have been identified and assessed scientifically to be in need of such services for leading a better quality 'of life and not in a routine manner just because

the scheme provides for such a cost item. These services would be operated on part time/on per visit basis.

9. Under the head of contingency, expenses such as postage, transport, telephone, stationery, medicines, office expenses, electricity, water charges, routine repairs to building, equipments and their maintenance etc would be covered. Additional charges on electricity in projects involving heavy machinery could be considered separately.
10. Stipend/Hostel Maintenance grants will be restricted to dependent beneficiaries whose family income from all sources does not exceed Rs. 1.00 lakh per annum. The Hostel Maintenance grant for boarders is intended to defray the expenses on food and other boarding expenses. The ceilings in this respect would be Rs.850 per month per beneficiary. Rs.200 per month will be allowed for day trainees/beneficiaries to cover their limited expenses.
11. It is expected that the duties of the Warden are performed by one of the existing members of staff for an additional allowance or honorarium. The post of a warden would only be considered in situations where the other staff - particularly teachers/instructors/persons holding administrative posts - cannot take up this additional responsibility or where there are residential facilities for both males and females.

II (B) SPECIAL SCHOOL FOR THE HEARING & SPEECH IMPAIRED

In the special education for the hearing impaired, the emphasis is on development of language and communication skills and academics. The basic objective of the special education for the hearing disabled

can therefore be stated to be "to assist the hearing disabled children to lead as normal a life as possible through education".

1. Objectives:

- i. To empower and enable the hearing impaired through access to special education to be productive citizens.
- ii. To impart knowledge that is age appropriate and pragmatic.
- iii. To facilitate communication skills in children with hearing impairment through sign language wherever found appropriate.
- iv. To help hearing impaired children to make use of their residual hearing to the maximum possible extent.
- v. To assist the hearing impaired child to acquire receptive and expressive language skills.
- vi. To help hearing impaired children improve their speech skills.
- vii. To cope with the normal literacy levels to prepare and provide opportunities for educational integration that would eventually lead to social integration.
- viii. To involve the parents and encourage them in a participative role in the educational development of the hearing impaired child.
- ix. To help the hearing impaired child to develop and emotionally fulfilling interpersonal relationship with others in society.
- x. To create awareness in the society at large with a view to provide healthy environment of growth and development for children with hearing impairment.
- xi. To facilitate the movement of their students to regular schools running integrated/inclusive programme.

2. Size of Project:

The size of the Schools should be such that there are necessary level of gradation with a total strength of 25 to 50 (or more) for each School, assuming that the teacher: beneficiary ratio is 1 :8. The Chronological age of the beneficiaries of the Special School should be from 5-18 years of age. Children below the age of 5 years are expected to be covered under the project profile of Pre-School and Early Intervention and Home Management Projects. However the School must attempt integration of the children with regular schools as early as possible. In respect of children who have been integrated with regular schools the special school may continue to provide remedial and supportive measures as required for which reasonable charges may be recovered from parents/guardians.

3. Infrastructure:

The infrastructural arrangement of the school should be suitable for the hearing impaired children.

IV. VOCATIONAL TRAINING CENTERS

1. Project Objectives:

These projects are meant for adolescents/adults with disabilities and these are expected to achieve the objective of moving the disabled person towards economic independence. An illustrative list of trades and the maximum period of training is available in Annexure to this model project. In addition, vocational courses recognized by the National Council for Vocational Training (NCVT), Directorate General of Employment and Training, Ministry of Labour and Employment, Government

of India, can be offered by Vocational Training Centres, with suitable adjustment of training periods considering the types of disabilities of the beneficiaries. While selecting the trades and beneficiaries it is imperative to ensure that trades are suitable for the beneficiary and that care is taken to assess the potential viability of marketing the skills acquired. The expected age limits of beneficiaries for these centers should range from 15 to 35 years. In deserving cases involving beneficiaries who are mentally retarded the age limits can be considered for relaxation.

It is expected that the projects of this kind will have established forward linkages in terms of tie up for future employment or self employment. Placement arrangements, financial assistance for individual entrepreneurship or through self-help groups and marketing arrangement should be in-built in these programmes.

2. **Size of the project:**

Each Center could be set up for beneficiaries for a minimum level of 20 and a maximum level up to 50 beneficiaries per trade. A maximum of three trades could be offered by each Center. In cases where the number of beneficiaries with the Non Governmental Organisations is very large the Ministry shall reserve the discretion to allow for more than three trades per center. The sale proceeds of the products made out of the raw material sanctioned for the center must be reflected in the accounts of the project and should be set off against the expenses. The duration of the training courses for each trade should not exceed the norms as suggested in Annexure to this model project. Each beneficiary will undergo the full course of the vocational training, after which he/she will not be retained any further with the institution. The trainees shall however be at liberty to join the sheltered workshop if one is being run by the same organization.

3. **Assistance Admissible:**

The extent of assistance will be reckoned with reference to the estimated size of the project in terms of the number of beneficiaries, types of trades proposed etc. However it should be ensured that minimal overheads are envisaged for each of the projects. For instance, instructors proficient in more than one trade should be employed for those trades which are related in nature (e.g. Knitting and Tailoring) and/or for relatively lesser specialized areas such as candle making, file making, book binding etc. Admissible project component under Vocational Training Projects, are illustrated hereunder:

Cost Item	No. of Post/item	Annual Cost in Rs.

appropriate furniture in the working area and hostel/home including specialized furniture. (once in three years)		
5. Books (once in two years)	-	15000

NOTES

1. If the NGO is providing for transportation, it may retain this allowance.
2. If the beneficiary arranges for his/her own transportation then the allowance must be released to him/her/guardian.
3. Considering that the distance from home to school/work area would vary in each case, the NGO is at liberty to decide on adjusting the release of transport allowance with reference to the difference in distance and expenses incurred by their trainees.
4. The prescribed duration of the training programs have been given in Annexure to this model project and the beneficiaries are expected to successfully complete the training within the prescribed period making way for new trainees. The period of stay in no case shall exceed the outermost limit of 3 years even for MR persons.
5. Stipend/Hostel Maintenance grants will be restricted to dependent beneficiaries whose family income from all sources does not exceed Rs 1 lakh per annum. The Hostel Maintenance grant for boarders is intended to defray the expenses on food and other boarding expenses. The ceilings in this respect would be Rs.850 per month per beneficiary. Hostel Maintenance would not cover honorarium in respect of Hostel staff. Rs. 200 per month will be allowed for day trainees/beneficiaries to cover their limited expenses. The assistance under this head will be restricted to the prescribed period of training and in no case beyond 3 years for the same beneficiary.
6. The amount of assistance on account of rent will be regulated within the above ceilings keeping in view the parameters associated with it, the area occupied and used for the project, type of trade undertaken and the number of beneficiaries and the prevailing PWD rates assessment in that area and the rent agreement.
7. The building owned or hired should be clean, spacious, well lighted and ventilated to facilitate comfortable stay and learning by the trainees/beneficiaries. The building and classrooms should provide barrier free access as far as possible.
8. It is expected that the duties of the Warden are performed by one of the existing members of staff for an additional allowance or honorarium. The post of a warden would only be considered in situations where the other staff - particularly teachers/instructors/persons holding administrative posts - cannot take up this additional responsibility or where there are residential facilities for both males and females. This will be applicable to all type of residential programs.
9. Under contingencies, expenses such as postage, transport, telephone, stationery, medicines, office expenses, electricity, water charges, routine repairs to building, equipments and their maintenance etc would be covered. Additional charges on electricity in projects involving heavy machinery could be considered separately.
10. The actual requirement of funds for procurement of raw material within these limits have to be adequately justified.

V. SHELTERED WORKSHOP (FOR 40-50 BENEFICIARIES)

Project Objectives:

Like the Vocational Training Centers, these projects are expected to achieve the objective of moving the disabled towards economic independence. While selecting the beneficiaries it is important that care is taken to assess the potential viability of marketing the product/services of the workshops. It is therefore expected that projects of this kind should establish forward linkages and tie up with establishments that would absorb the goods and services from these centers and thereby sustain their activity in an economic manner. It is desirable that the beneficiaries of the sheltered workshop are those trained through the VTC centers for the disabled.

It is preferred that the center should not exceed 50 beneficiaries at any given point of time. Should the need to expand the project arise in future for another unit, on account of exceptional circumstances, the Ministry

will examine and rationalize the cost of augmentation if the expansion is approved. To avoid a cascading and overlapping effect of assistance, normally for the second unit the administrative cost will not be entertained and it would be expected that the existing staff strength should cater to the project needs.

Assistance Admissible:

Since projects of this kind are mainly meant for income generation opportunities for the target group, assistance will be provided for a limited period of three years, at the end of which it is expected that the center will be self-sustaining. Raw material shall be allowed only for the initial year of assistance. Income from sale of the product of the center out of the raw material funded by the Ministry shall be reflected in the accounts of the project, while submitting their proposal for the second and subsequent year of assistance. The center is expected to take off from the second year onwards without receiving grants for the raw materials. The basic components of the Sheltered Workshop shall comprise:

VI. PROJECT FOR REHABILITATION OF LEPROSY CURED PERSONS (LCPs)

Objective:

The project is for adults cured of leprosy and not for the leprosy afflicted persons. Of the existing components of the projects indicated in the Scheme to Promote Voluntary Action For Persons With Disabilities for this category only the VTC component is strongly encouraged. Project for Sheltered workshop can also be run for this category. The basic aim of this project is to empower the LCPs with skills that would enable them to improve their socio-economic condition, and to sustain themselves through. self-employment and entrepreneurship either individually and/or collectively. Each VTC should cater to at least 25 or above LCPs. Separately Homes can be supported for the severely disabled LCPs for 50-100 persons.

7. It is expected that the duties of the Warden are performed by one of the existing members of staff or an inmate for an additional allowance or honorarium.
8. The actual requirement of funds for procurement of raw material within these limits has to be adequately justified.

VII. HALF WAY HOME FOR PSYCHO-SOCIAL REHABILITATION OF TREATED AND CONTROLLED MENTALLY ILL PERSONS

The objective of this project is to provide a facilitating mechanism for rehabilitation, of treated and controlled mentally ill persons after their discharge from Mental Hospitals and asylums. The need for such halfway homes is felt, as the community at large is still hesitant in accepting such persons into its fold. The project is aimed at providing vocational training to such treated and controlled mentally ill persons as well as counseling for them and their families to facilitate reintegration with the family/society. The project is expected to also provide medical advice/treatment relating to their illness so that periodic or occasional psychiatric disturbances can be managed. It is expected that the inmates would be able to get integrated

into normal life within a reasonable period of time. The half way homes/ hostels can be for a group of 25 inmates.

IX. HOME BASED REHABILITATION PROGRAM/HOME MANAGEMENT PROGRAMME

While institutionalized efforts for imparting special education to the disabled are rendered through the Special Schools and institutions, it is imperative to appreciate the need to supplement these efforts through Community and Home management programs. With a view to apply a holistic approach in addressing the needs of the physically and mentally challenged, projects which focus on community involvement and the family in the home environment have been encouraged. Of these, the Home Management projects are expected to cater to the development of the child within the larger context of his or her home environment. In this sense these programmes would serve as vital supplements to the inputs received in the special schools. The existing special schools are encouraged and expected to provide resources to run these services. The aim is to rely upon the Special School set up as resource base for these programs. The incidental expenses relating to material and logistic costs will be granted for these programs.

Objectives:

- i. To guide and provide for mobility skills.
- ii. To help the disabled in developing basic communication skills.
- iii. To impart activities of daily living skills in the home environment especially for the severely disabled.
- iv. To sensitize the parents/guardians of the target group through counseling and related inputs.
- v. To help families to identify the resources and subject material for managing problem behaviours, behavioral disorders and positive behavioral support.
- vi. To help the parents to acquire the right perspective to look at the problem of the child within the larger context of his or her environment, home and in the community.

- vii. To assist in a way that the families in the home environment are able to identify factors that influence or trigger challenging behaviour and develop an understanding of how to provide the positive behavioral support that the child needs to act appropriately.
- viii. To bring home the therapeutic needs of the disabled.
- ix. To provide TLM and other relevant material for guidance at home.
- x. To conduct annual client evaluation through review exercise.

Project size:

The number of beneficiaries covered should range from 15 to 30 families covering as many persons with disability. The ratio of coverage per home for each itinerant teacher should be 1:15.

Assistance admissible:

NOTES

1. For the cost of Home visits, the transport cost will be charged to the parents of each beneficiary except in the case of BPL families. To facilitate coverage of BPL families, the itinerant teacher can obtain additional remuneration of 10% the honorarium as in the case of other projects.
2. Under the head of contingency expenses such as postage, transport, telephone, stationery, medicines, office expenses, electricity, water charges, routine repairs to building, equipments and their maintenance etc would be covered.

X. PROJECT FOR COMMUNITY BASED REHABILITATION

In community based programmes the disabled person, the family, the community, and health professionals collaborate to provide needed services in a non-institutional setting, in an environment where services for

disabled persons are seriously limited or totally absent. In this context, these programmes are appropriate in addressing the needs of the disabled especially in the rural settings. Its essential feature is its focus on partnership and community participation. Introducing rehabilitation services at a local or community level removes many obstacles to care, which are associated with institutions. The difficulty of travel and its expenses are eliminated or reduced to a minimum. The individual is not isolated from the community; family members and community volunteers are part of the rehabilitative process. All participants can see what the disabled person has achieved. This can help integrate the person into the community, which is prepared to value the unique contribution, which the person is able to make.

Objectives:

- i. Community Based Rehabilitation recognizes the need to work for equality of status and opportunities for the disabled.
- ii. To rehabilitate and train disabled individuals, as well as to find ways to integrate them into their communities.
- iii. The objective is to bring the physically and mentally challenged into the mainstream of life and help them in their effort of becoming self-sufficient and active members of society.
- iv. Integral to this approach is the participation of community members with the focus for training a new corps of health and social workers.

Project Cost:

The cost for the various components of the CBR programme illustrated below. While these costheads are suggestive, it may be borne in mind that the size of the CBR project would depend upon the location of the project being implemented. Approaches to the implementation of CBR could vary and are largely determined by a variety of social and demographic factors.

*NOTES

1. The post of Vocational Instructor will be provided for only if the project specifically envisages a vocational training component. The expenses of training would be the same as for other programmes. Keeping in mind the fact that the implementation of the CBR programmes involves a lot of traveling, expenses on travel, may be accepted at twice the rates suggested for other programmes.
2. Whenever a motorbike or a bicycle is proposed to be provided to the CBR worker, the traveling expenses will be paid only if no POL charges are given to the worker. The personnel in CBR programme must be trained rehabilitation workers. Experience will also be taken into account. The services of specialists may be obtained through networking with regular programs providing such services.

XVIII. DISTRICT DISABILITY REHABILITATION CENTRES

Introduction:

As a part of the overall strategy to provide comprehensive services to the persons with disabilities at the grass root level, the Ministry of Social Justice and Empowerment with active support from State Govt. has been facilitating creation of the infrastructure and capacity building at district level for awareness generation, rehabilitation, training/guiding of grassroots level functionaries, through setting up District Disability Rehabilitation Centres (DDRCs) in all the unserved districts of the country, managed by a District Management Committee (DMT) headed by the District Collector.

For first three years (5 years in case of DDRCs in the North Eastern States and J&K) the financial support towards the staff honorarium, equipment and travel is provided through the Scheme for Implementation of PWD Act of the Ministry of Social Justice and Empowerment, GOI. After 3/5 years DDRCs are transferred completely to a pre-identified implementing non-Governmental agencies that would thereafter manage DDRCs and continue their services. The DMTs would continue to supervise and coordinate the activities of the DDRCs. Funding to the DDRCs at this stage is to be provided under this scheme.

Objectives:

To provide financial support to District Disability Rehabilitation Centres (DDRCs) which would provide rehabilitative support to persons with disabilities through:

- i. Survey & identification of persons with disabilities through camp approach;
- ii. Awareness Generation for encouraging and enhancing prevention of disabilities, early detection and intervention etc.
- iii. Early Intervention;
